## **NOTICE OF SUSPENSION**

Dear Mr. Boone:

On December 22, 2021, a "Notice of Suspension" was issued to suspend the assignment of inspectors for your federal slaughter activities at Boone's Abattoir, LLC, 100 Old Bloomfield Pike, Bardstown, Kentucky, Est. M8078. This action was based on your establishment's failure to handle livestock humanely according to 9 CFR Part 313.

### **Background/Authority**

The Federal Meat Inspection Act (FMIA) (21 U.S.C. 603 *et seq*) states, "for the purpose of preventing the inhumane slaughtering of livestock, the Secretary shall cause to be made, by inspectors appointed for that purpose, an examination and inspection of the method by which amenable species are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under this Act. The Secretary may refuse to provide inspection to a new slaughtering establishment or may cause inspection to be temporarily suspended at a slaughtering establishment if the Secretary finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishments by any method not in accordance with the Act of August 27, 1958 (72 Stat. 862; 7 U.S.C. 1901-1906) until the establishment furnishes assurances satisfactory to the Secretary that all slaughtering and handling in connection with slaughter of livestock shall be in accordance with such a method. This Act also gives FSIS personnel the right to examine and inspect all carcasses and parts of carcasses that are further treated and prepared, and the right to access and examine establishment records.

Under the authorities of the Act, FSIS has prescribed rules and regulations required for establishments producing meat products, including the requirements pertaining to Humane Slaughter of Livestock (9 CFR Part 313) and other matters. Specifically, your establishment failed to meet the following regulatory requirement as specified by 9 CFR § 313.15 (a)(1) and (3) which states, "(a) Application of stunners, required effect; handling. (1) The captive bolt stunners shall be applied to the livestock in accordance with this section so as to produce immediate unconsciousness in the animals before they are shackled, hoisted, thrown, cast, or cut. The animals shall be stunned in such a

*manner that they will be rendered unconscious with a minimum of excitement and discomfort. (3) Immediately after the stunning blow is delivered the animals shall be in a state of complete unconsciousness and remain in this condition throughout shackling, sticking, and bleeding”.*

**Humane Methods of Slaughter Act:** Humane Methods of Slaughtering Act, 7 U. S. C. 1901 states, “*The Congress finds that the use of humane methods in the slaughter of livestock prevents needless suffering; results in safer and better working conditions for persons engaged in slaughtering operations; brings about improvement of products and economies in slaughtering operations; and produces other benefits for producers, processors and consumers which tends to expedite an orderly flow of livestock and livestock products in interstate and foreign commerce. It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods (7 U.S.C. 1901).*”

FSIS has prescribed Rules of Practice regarding enforcement (9 CFR Part 500). The Rules of Practice describes the types of enforcement actions that FSIS may take including procedures for taking a withholding action and/or suspension, with or without prior notification, and for filing a complaint to withdraw a grant of Federal inspection. 9 CFR § 500.3 (b) states, “*FSIS also may impose a suspension without providing the establishment prior notification because the establishment is handling or slaughtering animals inhumanely.*”

### **Findings/Basis for Action**

On December 22, 2021, while performing the Livestock Humane Handling task at Boone's Abattoir (M8078) Bardstown, KY, the Supervisory Veterinary Medical Officer (SVMO) made the following observation at approximately 0830 hrs.: Establishment personnel placed three (3) market swine in the knock box in preparation for stunning with the handheld captive bolt device (HHCBD). While in the adjacent room to the kill floor the SVMO heard the HHCBD fire followed by vocalization coming from the knock box. When the SVMO entered the kill floor, two animals were observed insensible in the knock box; the third animal was observed sitting upright looking about with a wound on the forehead and blood trickling down its face. Establishment personnel reloaded the HHCBD and fired a second time; the animal remained sitting upright, looking about. Establishment personnel again loaded the same HHCBD and fired a third time; the animal again sat upright and looked about, displaying a conscious righting reflex and conscious eye-tracking. Establishment personnel loaded the same HHCBD for a fourth time and fired, rendering the animal insensible, and so it remained for the duration of the slaughter process. USDA FSIS IPP (In-Plant Personnel) determined that the establishment failed to deliver immediate and effective corrective actions following the initial failed stun attempt, and U.S. Rejected tag #45422883 was placed upon the knock box. Establishment owner Mr. Jerry Boone was notified of the observation and regulatory control action.

On December 22, 2021, at approximately 9:30 AM CDT, the Deputy District Manager (DDM) from the Jackson District Office, held a conference meeting with you and informed you that the withholding action to suspend the federal slaughter activities at your facility was sustained. You are herein receiving written notification of the suspension of the assignment of inspectors for your federal slaughter activities with this letter.

The occurrence of this inhumane handling incident constitutes a violation of the humane slaughter requirements and supports a conclusion that your handling of livestock violated the provisions of 21 U.S.C. 603, Section 3 (b) of the FMIA, and 7 U.S.C. 1901 and 1902 of the Humane Methods of Slaughter Act of 1978. You failed to meet the regulatory requirements of 9 CFR § 313.15 (a) (1 and 3). The

suspension of the assignment of inspectors for federal slaughter activities will remain in effect until you provide written corrective actions and preventive measures to the Jackson District Office, to assure that the animals at your establishment will be handled humanely in accordance with the Humane Methods of Slaughter Act and regulations promulgated there under.

Please provide this office with a written response concerning this Notice of Suspension by addressing the following:

- Evaluate and identify the root cause of the incident.
- Explain the specific reason(s) why the event occurred.
- Describe the specific actions taken to eliminate the root cause of the incident.
- Describe specific planned actions that you will take to prevent future recurrences.

Please provide associated records that include monitoring and verification activities that your establishment will use to ensure that the changes made are effectively implemented. We will determine further action, if any, based on your response(s).

As a federally inspected establishment, you are expected to comply with 9 CFR § 313.15 (a) (1 and 3) of the regulations and all other requirements concerning the humane slaughter of livestock. In accordance with 9 CFR § 500.3 (b), we are implementing a suspension of the assignment of inspectors for your federal slaughter activities due to inhumane handling. Establishment management should clearly understand the seriousness of repetitive humane handling violations which could lead to Agency actions, that could result in actions to withdraw the grant of inspection.

You may appeal this action by contacting:
