NOTICE OF SUSPENSION

Dear Ms. Chrismer,

This letter confirms verbal notification provided to Ms. Kristin Chrismer, President, by Mr. Joseph Schein, Deputy District Manager (DDM), at approximately 1500 hours on March 02, 2022, of the Food Safety and Inspection Service’s (FSIS) decision to suspend the assignment of Inspection Program Personnel (IPP) for all Slaughter Hazard Analysis and Critical Control Point (HACCP) processes at **Stoney Point Butchery, Inc. (EST 9646)** located in Littlestown, PA. FSIS is issuing this notification in accordance with the Rules of Practice, Title 9 of the Code of Federal Regulations (9 CFR) Part 500.3(b).

Findings/Basis for Action

On March 02, 2022, at approximately 1240 hours, the following egregious humane handling incident was observed. IPP observed two establishment employees, inside the holding pen, trying to bring a large boar hog (approximately 650 pounds) into the stunning area. One employee was trying to use a hog board to move the boar, which didn’t want to move. At that point, the employee began to rapidly punch the boar with a closed fist. The employee hit the boar three (3) times with full, closed fist, punches around the neck area, and then one full punch in the face before IPP could tell him to stop. The hog tried to move away from the punches by turning its head. The knock box was tagged with USDA Reject tag number B26812535, halting any further FSIS inspected slaughter operations. The establishment currently is operating under a Robust Systematic Approach to Humane Handling; however, its employees were not following the program as implemented.

For animal movement, 9 CFR Part 313.2 part (a) “Handling of Livestock” requires that the driving of livestock from the unloading ramps to the holding pens and from the holding pens to the stunning area shall be done with a minimum of excitement and discomfort to the animals.

Background/Authority

The Federal Meat Inspection Act (FMIA) [21 U.S.C. 603 sec. 3. (b)] states, “for the purpose of preventing the inhumane slaughtering of livestock, the Secretary shall cause to be made, by inspectors appointed for that purpose, an examination and inspection of the method by which cattle, sheep, swine, goats, horses, mules, or other equines are slaughtered and handled in connection with slaughter in the slaughtering establishments inspected under this Act. The Secretary may refuse to provide inspection to a new slaughtering establishment or may cause inspection to be temporarily suspended at a slaughtering establishment if the Secretary finds that any cattle, sheep, swine, goats, horses, mules, or other equines have been slaughtered or handled in connection with slaughter at such establishment by any method not in accordance with Sections 1901 to 1906 of Title 7 until the establishment furnishes assurances satisfactory to the Secretary that all slaughtering and handling in connection with slaughter of livestock shall be in accordance with such a method.” In addition, under prohibited acts, 21 U.S.C. 610 sec 10 (b), “No person, firm or corporation shall, with the respect to any cattle, sheep, swine, goats, horses, mules, and other equines, or any carcasses, parts of carcasses, meat or meat food products of any such animals slaughter or handle in connection with slaughter any such animals in any manner not in accordance with sections 1901 to 1906 of Title 7.”

Under the authorities of the FMIA, FSIS has prescribed rules and regulations required for establishments producing meat products, including the requirements pertaining to Sanitation Performance Standards (SPS), Sanitation Standard Operating Procedures (SSOP), Hazard Analysis and Critical Control Point (HACCP) 9 CFR Parts 416, 417, and other matters. FSIS has also developed Rules of Practice regarding the enforcement action that it may take and includes procedures for taking a withholding action and/or suspension, with or without prior notification, and for filing a complaint to withdraw a Grant of Inspection.

7 U. S. C. 1901

Humane Methods of Slaughtering Act 7 USC 1901 states, “The Congress finds that the use of humane methods in the slaughter of livestock prevents needless suffering; results in safer and better working conditions for persons engaged in the slaughtering industry; brings about improvement of products and economies in slaughtering operations; and produces other benefits for producers, processors, and consumers which tend to expedite an orderly flow of livestock and livestock products in interstate and foreign commerce. It is therefore declared to be the policy of the United States that the slaughtering of livestock and the handling of livestock in connection with slaughter shall be carried out only by humane methods.”

7 U. S. C. 1902

The Humane Methods of Slaughtering Act 7 USC 1902 states, “No method of slaughtering or handling in connection with slaughtering shall be deemed to comply with the public policy of the United States unless it is humane.”

When an egregious situation exists, FSIS can refuse to render inspection and indefinitely withdraw inspection from an establishment provided the establishment is afforded the right to an administrative hearing.

Under the authority of the above Acts, FSIS has prescribed rules and regulations required for establishments producing meat and poultry products, including the requirements pertaining to Humane Slaughter of Livestock, as required by 9 CFR 313, and other matters.

Please provide this office with a written response concerning this NOS by addressing the following:

- Evaluate and identify the nature and cause of the incident.
- Explain the specific reason(s) why the event occurred.
- Describe the specific actions taken to eliminate the cause of the incident.
- Describe specific planned actions that you will take to prevent future reoccurrences.

Provide associated records that include monitoring and verification activities your establishment will use to ensure that changes are effectively implemented. We will determine further action, if any, based on your response.

You are reminded that as an operator of a federally inspected plant you are expected to comply with FSIS regulations and to take appropriate corrective actions to prevent the inhumane treatment of animals at your establishment. Please be advised you have the right to appeal this matter. If you wish to appeal, you should contact:

Executive Association for Regulatory Operations
USDA, FSIS, Field Operations
1400 Independence Ave. S. W.
Room 3161, South Building
Washington, DC 20250-3700
Telephone: 202-215-0001

In addition, you may also request a hearing regarding this determination pursuant to FSIS Rules of Practice (9 CFR Part 500). The rules of practice were published in the Federal Register, Vol.64, no 228, on November 29, 1999. As specified in section 500.5(d), should you request a hearing, FSIS will file a complaint that will include a request for an expedited hearing. If you wish to request a hearing regarding this determination, you should contact:

Scott C. Safian, Director
Enforcement Operations Staff (EOS)
Office of Investigation, Enforcement and Audit (OIEA)
